

The Two-Line Assessment Template

A free, one-page worksheet for any HOA board — with or without Commonsure.

Use this worksheet to separate what your community's management fee actually covers (Line 1 — Locked) from what moves independently of that fee (Line 2 — Pass-through). Fill in your community's current numbers below, using your most recent budget, insurance renewal, and reserve study.

Community name: _____

State: _____

Date: _____

LINE 1 — LOCKED

Management fee (monthly)	\$
Management fee (annual)	\$
Contract term start	
Contract term end	
Included services (list)	

LINE 2 — PASS-THROUGH

Property/master insurance (annual)	\$
Property taxes, if applicable (annual)	\$
Regulated utilities (annual)	\$
Reserve contribution (annual)	\$
Last year's renewal change (%)	%
Reserve study on file? (Y/N, date)	
Total pass-through (annual)	\$

How to use this: Add Line 1 (locked) and Line 2 (pass-through) separately in every board report and every homeowner communication — never as one combined "total bill" number. If your Line 2 total has grown faster than your Line 1 total, that is the clearest sign a documented 12-month operating baseline and reserve-study review would help your board before your next renewal.

This template is provided free by Commonsure Community Solutions, a certainty and treasury platform for community associations — not a management company — delivered through state-licensed consortium partners. Using this template does not obligate your community to any Commonsure engagement.
